

Creating healthy spaces

Topfix[®] Max F

Horizontal sunprotection for large surfaces,
can be mounted in existing open constructions

Topfix® Max F

Description

RENSON® Sunprotection-Screens introduces the Topfix® Max F (Free). Through our patented solution, this horizontal sunscreen can be integrated in open structures. This offers a wide range of new mounting possibilities that contribute to the RENSON® Healthy Outdoor Concept. This concept aims to take the outdoor living space to a higher level taking three levels of comfort into account: Physical comfort, Thermal comfort and Visual comfort.

Using the Fixscreen® technology, the Topfix® Max F can cover extremely large surfaces, up to 30 m²! Its combination with the integrated tension system results in an exceptional fabric tension. As of now, flapping and ruptured screens belong to the past.

Product

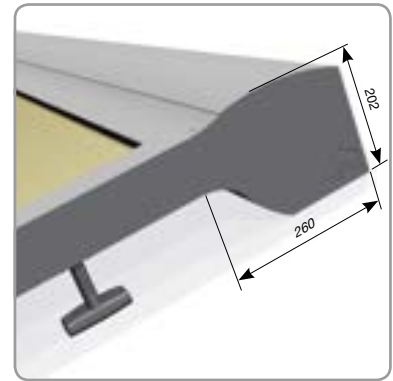

- Sunprotection with excellent fabric tension
- Wind tight in any position
- Motor control
- **Possible use of fabrics: Soltis®, Rensonscreen® and Rensonscreen® Waterproof**
- Possible with acrylic fabric - **NEW!**
